# What's new in Peachtree 2010?

Features vary by product. Please see the product comparison chart for specific details.

## Transaction History

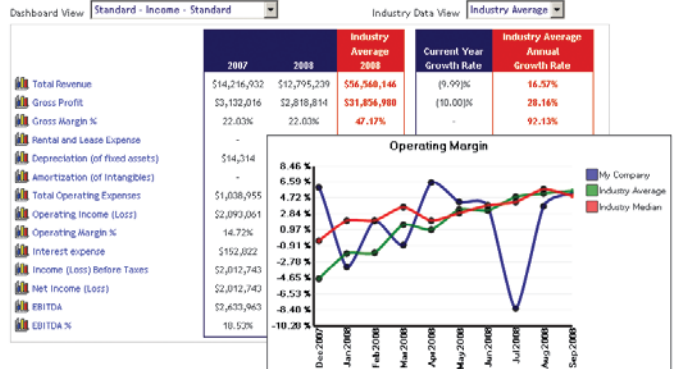

- Easily and quickly view all history related to a particular customer or vendor transaction throughout the entire chain of events at any point in the sales or purchase process.
- View forward from a purchase order to a payment or backwards from a receipt to a quote.
- Save time getting to the information you need to take action!

Transaction History

## Business Analytics<sup>1</sup>

- See how your company is performing compared to other companies in your industry or geographic region with the new customizable company dashboard!
- Get instant access to view up-to-date key financial trends in order to compare items such as Total Revenue, Gross Margin %, Days Sales Outstanding, and much more.
- Use this tool to help improve your business' financial health and make critical decisions.

Business Analytics

## Customer Management Center

- Save time by viewing the details you need all in one place to better manage and service your customers without missing a beat.
- Create a customizable dashboard view of your customers' information such as their converted and unconverted quotes, invoices, receipts, time tickets, aged balances, items and services sold, and much more. Drill down to the detail and quickly take action too.
- Save time by looking up customers quickly based on their ID, phone number or any of their contact information, and filter further based on date ranges. Utilize the Recent Selections link to quickly pull up customers you have already viewed.
- Easily export customer information to Microsoft® Excel® or PDF, or launch an e-mail from the Customer Management Center.

The screenshot displays the Peachtree Accounting software interface. The main window is titled "Customers & Sales" and shows details for a customer named "Retail (Cash) Sales". The interface includes a navigation sidebar on the left with options like Business Status, Customers & Sales, Vendors & Purchases, Inventory & Services, Employees & Payroll, Banking, Company, and Shareholders & Customers. The main area is divided into several sections:

- Customer Management:** Shows customer ID (RETAIL), name (Retail (Cash) Sales), and balance (\$1,424.24).

1023	3	3/15/2010	9861	\$317.86	012607
- Totals:** A summary table showing counts and amounts for Sales Invoices, Receipts, and Credit Memos.

Customer Management Center

## Open Multiple Companies<sup>2</sup>

- Get your work done faster by being able to open and work in multiple companies within Peachtree at the same time!
- Open all of your companies at the same time and toggle in just one click to the company you need without closing your current company.
- If you would rather work in only one company at a time, now you can save time by not having to re-enter your login information when switching between companies. Enter your user id & password once and Peachtree will remember it until you close Peachtree.

## Multiple Contacts<sup>3</sup>

- Store a virtually unlimited number of contacts for every customer in Peachtree!
- The **new “Contacts”** tab in the Customers screen allows you to keep track of many specific details you need to maintain your relationships for each of your customers.
- Track more details like contacts’ titles, phone numbers, e-mail address, and specify the ship-to addresses.
- A **new Notes field** allows you to track unique information about each contact, like shipping instructions.

The screenshot shows the 'Maintain Customers/Prospects' window in Peachtree. The 'Contacts' tab is selected, and the 'New Contact' button is circled in red. The form displays the following information:

- \*Customer ID: ARCHER
- Name: Archer Scapes and Ponds
- Prospect:
- Inactive:
- Contact Selection: Select a contact: Archer, Nancy
- Contact Information:
  - Contact name: Title Nancy MI Archer Suffix
  - Company name: Archer Scapes and Ponds
  - Job title:
  - Telephone 1: 770-555-4660
  - Telephone 2: 770-555-4661
  - Fax: 770-555-4662
  - E-mail: narcher@sample.peachtree.com
  - Gender:
- Address Information:
  - Address: Bill To
  - 778 Oakland Parkway
  - Alpharetta, GA 30092
- Notes:
- Use Ctrl+Enter to move to the next line.
- This is the default ship-to contact for this customer.
- Use Company Name in the ship-to address.

**This is the bill to contact for this customer.**

Track Multiple Contacts

## Peachtree Quantum - Order Process Workflow

- Improve daily efficiency of your business with the new Order Process Workflow system in Peachtree Quantum.
- Keep track of all the moving parts of your order process so nothing gets missed and everything moves along as planned.
- Notify the next person in the process with a status and specific notes as needed.
- Have one centralized place to keep track of all the work involved in the process, or see just your own tasks.
- Automatically send notifications to designated Peachtree users once a task is completed.

## Peachtree Quantum - My Dashboard

- Everyone is unique in how they work in Peachtree. Now every user can create their own personalized dashboard to help them focus only on what they need to.
- Customize the screens to only show things you do on a regular basis, like managing Aged Receivables, or Aged Payables, or Payroll and much more. Mix and match from various functions in Peachtree. Or make another view that shows only the tasks you need on a weekly or monthly basis – you choose!
- However you create your dashboard, you will have the ability to customize the individual areas and filter data based on how you need to track it. And security is assured because available modules are based on each user's security level.

The screenshot displays the Peachtree Quantum software interface. The main window is titled 'My Dashboard' and contains several sections:

- My Peachtree Inflow:** A table showing transactions for the quarter from 01/01/2010 to 03/31/2010. It lists transaction types, IDs, statuses, and names.
- Item Sales History by Customer:** A table showing sales history for item AWRY-10100. It includes columns for Item ID, Description, Customer ID, Customer Name, Type, Date, Quantity, and Unit.
- Aged Receivables:** A pie chart and table showing the distribution of receivables by days overdue. The total amount is \$191,743.73.
- Aged Payables:** A pie chart and table showing the distribution of payables by days overdue. The total amount is \$5,476.61.
- Customers Who Own Money:** A table listing customers with their names, amounts due, and due dates.
- Vendors to Pay:** A table listing vendors with their names, amounts due, and due dates.

## Core Strengths of Peachtree

Getting the numbers right is critical to making better business decisions. Peachtree by Sage products are designed to provide the accuracy and control your small business needs to succeed. Based on real, double-entry accounting principles, Peachtree provides powerful internal accounting controls and reliable security, plus robust reporting for insights that increase profitability. Peachtree securely locks prior periods, and offers module- and screen-level user security to regulate financial data access. With Peachtree by Sage, you can expect increased accuracy and control over your finances—to empower the success of your business.

### Real, Double-Entry Accounting for Accuracy and Control

Double-entry accounting provides for accounts that are accurate and in balance. Peachtree customers retain control over the bookkeeping process through the use of Accounting Periods and G/L Accounts. In Peachtree, each accounting period (usually a calendar month) can be locked so that the administrator can select who can edit transactions in prior periods.

### Accounting Behind the Screens

When customers select the Journal button in various task windows, Peachtree displays the corresponding journal entries in the Accounting Behind the Screens window. These are journal entries Peachtree accounting records when saving a transaction. Users can modify the journal entry by changing the account IDs for each distribution listed in the transaction. This gives them visibility into how a transaction is being posted on both sides of the General Ledger, and allows users the ability to change any of the G/L accounts that the transaction affects.

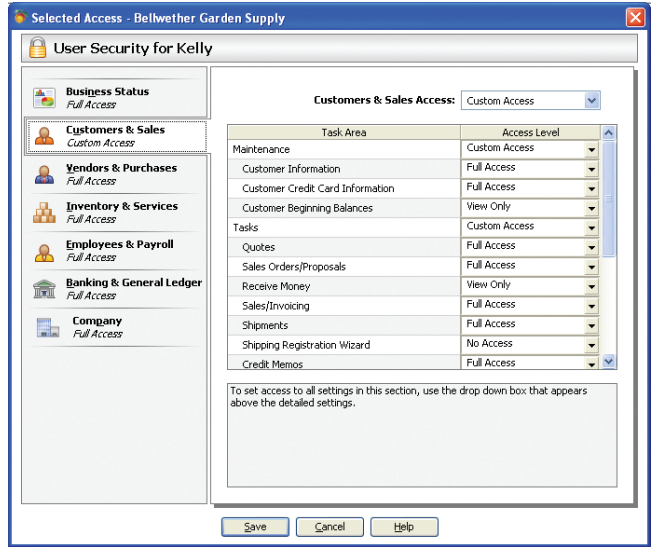

Account No.	Description	Debit	Credit
23100-00	GEORGIA: Georgia State Sales Tax		159.94
23100-00	COBB: Cobb County Sales Tax		79.97
40000-LS	Landscaping Design		799.84
57000-LS	Cost of sales	To be calculated	
77500-00	Cost of sales	To be calculated	
40000-LS	Planting Service		199.90
57000-LS	Cost of sales	To be calculated	
77500-00	Cost of sales	To be calculated	
<b>Totals:</b>		5,238.12	5,238.12

Accounting Behind the Screens

## Screen-Level Security

Peachtree multi-user products provide the ability to control user access with a high degree of precision.

Security controls in Peachtree allow for screen-level and report groups access control. Administrators can select from more than 100 specific areas to give Add, Edit, View-Only, or No Access rights to each user. You can even block access to key navigation screens such as the Business Status Center.

## User Security Set-up

## Audit Trail Report

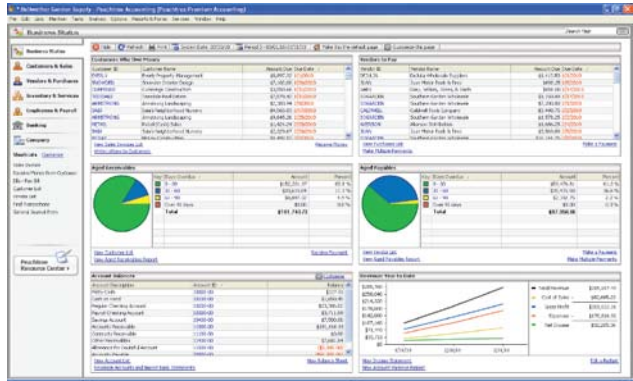

When a user wants to track changes to the company's data, the Peachtree audit trail provides that information in a very useable form. The audit trail tracks when a user enters data, edits existing data, or removes data. The Audit Trail Report provides accountability of users, deters users from fraudulent activity or mistakes, and tracks transaction history.

## Audit Trail Report

## Business Status Center

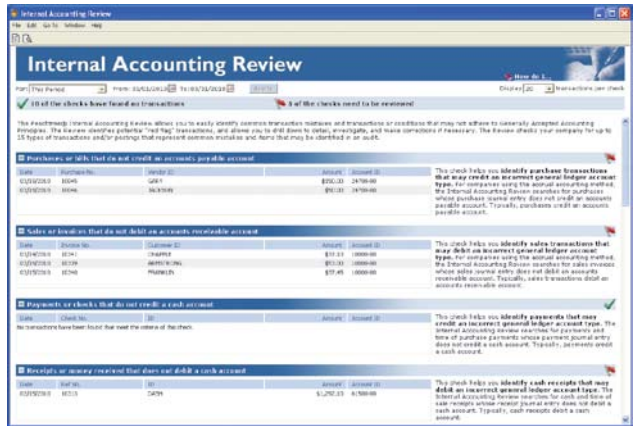

Monitor business activity from this data-driven dashboard, which provides a quick overview of key indicators. Relevant information includes account balances, how much each customer owes, which bills are due for payment, and which customers are most profitable. Information is customizable so each user can see what's critical for their work, and easily drill down for more details. It's information that helps managers make good decisions.

Business Status Center

## Internal Accounting Review<sup>4</sup>

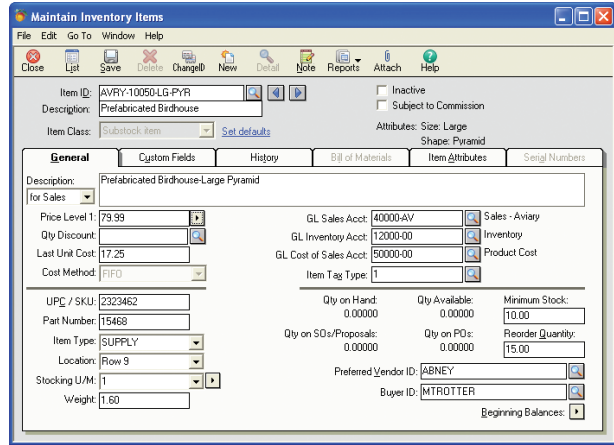

Up to 15 checks of your data are performed by the Internal Accounting Review process in Peachtree. These checks look for suspicious transactions and common accounting mistakes and give the user advice on correcting the transactions.

Internal Accounting Review

## Inventory Tracking and Replenishment

Inventory tracking is a real strength of the Peachtree product line. Small business owners can easily create and track inventory items based on user-defined attributes such as size, color, style, and more. Customers can maintain accurate Quantity on Hand information by reserving inventory requested on Purchase Orders and Sales Orders. They can even set up Peachtree to monitor inventory levels. When inventory reaches a predetermined level, Peachtree automatically creates a purchase order to replenish inventory. It's also possible to create purchase orders from sales orders and invoices.

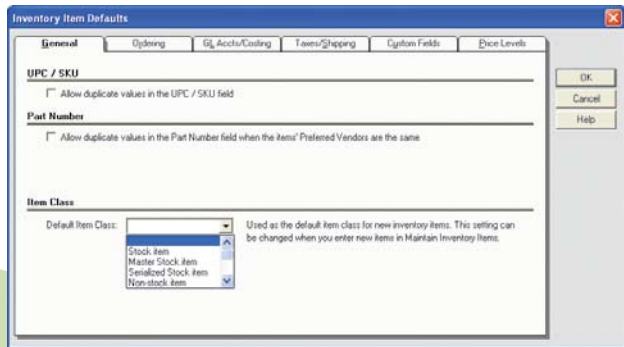

Maintain Inventory Items

## Inventory Pricing, Multiple Costing Methods

Peachtree makes it easy to update inventory prices. Establish up to 10 different, customizable price levels per item. It's easy to update prices by a specific dollar amount or percentage. Apply a pricing change to a handful of items or everything in inventory. A simple, point-and-click process allows the customer to apply price increases or decreases globally, rounding prices to a specific cent or dollar amount.

Peachtree customers can choose among several inventory costing methods. **Average, LIFO, FIFO, and Specific Unit costing are available.**

Maintain Inventory Items and Inventory Items Default

# Which Product is Right for You?

## Meeting the Changing Needs of Your Business

Has your business evolved to a point where your current software doesn't meet your needs? Do you require a solution that ties all your business functions together so your team will operate as one?

**Peachtree by Sage – Quantum 2010 is here.**

### Peachtree by Sage – Quantum

The most comprehensive product in the Peachtree product line, Peachtree Quantum is a top-of-the-line accounting solution that provides all the features found in Peachtree Premium Accounting, plus it supports 10, 15, 20, 30, or 40 named users.<sup>18</sup> It offers performance, database, and security management benefits over the regular Peachtree product line. And for businesses needing solutions for workflow tracking, the Peachtree Quantum Order Process Workflow helps you keep track of all the moving parts of your order process so nothing gets missed and everything moves along as planned. It automatically includes access to customer support and product updates/upgrades for 12 months from date of purchase, as part of the Peachtree Business Care Essential Plan<sup>19</sup>, making it the most cost effective comprehensive accounting solution. Peachtree Quantum comes with a 90-day, no-risk return policy.

### The Flexibility and Performance You Need

Peachtree Quantum is ideally suited for companies that are outgrowing the capabilities of other Peachtree or similar accounting solutions or companies looking for an alternative to higher priced accounting solutions without the high costs of implementation, training, and maintenance. Providing the flexibility and scalability needed by changing businesses, Peachtree Quantum is a robust, high-performance accounting solution. Its database has been optimized to support companies with larger transaction volumes and databases<sup>20</sup> to better manage additional customer, vendor, and inventory data.

### A Comprehensive Combination of Powerful Features

Peachtree Quantum provides many of the same features offered by software solutions for mid-sized businesses. Setting new users up on the system is fast and easy with Role Based Security. Peachtree Quantum comes with both modular and screen level security with predefined security templates by job function that you can modify. Industry specific features for manufacturers, distributors, contractors and nonprofit organizations, such as tracking bill of materials, revisions, work tickets, progress billing, and retainage<sup>17</sup> and much more are included. Peachtree Quantum offers the best value for growth-oriented small businesses while not compromising accuracy and control.

### Includes all features from Peachtree Premium Accounting 2010 and our Peachtree Industry-Specific product line, plus:

## Small Business Payroll Solutions

Processing payroll is a crucial element of doing business. Peachtree helps make payroll processing easier, allowing our customers to focus on their growing businesses. Whether a small-business owner prefers the convenience of full-service payroll or wants the control of in-house payroll, Sage has a solution.

### Full-Service Payroll with Peachtree Managed Payroll<sup>30</sup>

Peachtree Managed Payroll powered by CompuPay is the full-service solution for those who prefer to have payroll professionals handling their payroll. It's designed to reduce the risk of penalties, save valuable time, and relieve the considerable burden of in-house processing. On behalf of customers, our payroll professionals handle the complexities of payroll processing:

- Complete tax filing, compliance and payment service
- Online payroll access 24 hours a day
- Direct deposit
- Check signing and sealing
- Penalty-free Guarantee<sup>31</sup>
- Online employee access to pay stubs and W-2s
- Workers' compensation and new hire reporting

### Additional Services available:

Peachtree Managed Payroll offers the following services for an additional fee:

- Phone or Fax payroll solutions\*
- HR reporting and management
- Employee and manager self-service features
- HR Essentials® online HR library\*\*
- Benefit accruals and accruals report
- Labor distribution
- 401(k) file and reporting

*\* Phone and fax payroll services do not offer full integration with Peachtree.*

*\*\* Internet access required to utilize this service*

**No other payroll service can do that!**

For more information on  
Peachtree Managed Payroll, visit  
[www.peachtreepayroll.com](http://www.peachtreepayroll.com).

### In-House Payroll with Peachtree Simple Payroll<sup>29</sup>

For businesses that prefer to handle payroll in-house, we offer tools that simplify the process. Peachtree provides a helpful Payroll Setup Wizard, the ability to pay hourly, salaried and tipped employees, and the use of up to 20 different pay levels.

An annual subscription to Peachtree Simple Payroll provides:

- Updates to federal and state tax table calculations.
- Print-n-Sign Tax Forms – Signature ready tax forms for 940, 941, 9411B, 943, 945, W-2, W-3, and more than 230 state forms.<sup>32</sup>
- The peace of mind that comes with knowing your tax tables are up-to-date.

### In-House Payroll with Peachtree Select Payroll<sup>10</sup>

With our Peachtree Select Payroll, customers maintain control of payroll processing with Peachtree while additionally enjoying the convenience, speed, and accuracy of having Sage file and deposit Federal and State payroll taxes.

- Files tax payments and payroll reports on time.
- Tax payments and filings are transmitted to the taxing authorities in required format.

### Peachtree Direct Deposit<sup>30</sup>

Peachtree Direct Deposit service allows small businesses to automatically deposit employees' paychecks into the bank accounts they specify. Peachtree Direct Deposit is a win/win situation for both employer and employee, taking the hassle out of payday for everyone!

Peachtree Direct Deposit offers:

- Simple setup with assistance from our helpful Direct Deposit Service Representatives.
- Full integration with Peachtree 2010 solutions (except Peachtree First Accounting).
- Secure, reliable payroll processing.
- The ability to deposit funds into up to four different accounts at multiple financial institutions.
- Payroll runs that incorporate direct deposit and manually printed paychecks.

Each Peachtree customer ordering or renewing a payroll service will receive free W-2 forms (quantity based on the number of employees – not to exceed 500). Form No. LW2BLANK4: 4-Up plain perforated paper with filing instructions on back. Compatible envelopes sold separately. Must provide valid email address at the time of the Peachtree Simple Payroll or Peachtree Select Payroll order to receive redemption certificate. Free standard shipping only. Non-transferable. Limit one FREE W-2 redemption offer per customer.

## Additional Tools for Small Businesses

### Peachtree Checks & Forms

Guaranteed to be 100% compatible with Peachtree accounting solutions<sup>34</sup> and customized to include company logos and more. Checks, envelopes, invoices, statements, mailing labels, and tax forms are available. Additional fees apply.

### Accept Credit Card Payments Using Peachtree Payment Solutions<sup>35</sup>

Enables businesses to easily accept and authorize credit card payments, whether or not a card is present. Additional hardware may be required. Peachtree Payment Solutions works with existing bank and merchant accounts.

### Peachtree Remote Access powered by GoToMyPC<sup>36</sup>

Securely access your office computer and all your network resources from any Internet connection. From home. While traveling. Anywhere, anytime—without missing a beat. 30 day free trial.

### Peachtree Online Backup Service powered by Iron Mountain<sup>37</sup>

Help keep your company's financial data safe with off-site storage. 100 MB is included with Peachtree 2010 and each subsequent upgrade. You can now protect your critical information against hardware failures and catastrophic events.

### Peachtree Bill Pay<sup>38</sup>

There's no need to print and mail checks. Payments, including remittance advices, are electronically transmitted to the Peachtree Payment Center for processing before being delivered to the appropriate vendors.

### Peachtree WebsiteCreator Pro<sup>39</sup>

Small businesses can quickly and easily create professional-looking, interactive Web sites for their companies. They can even create an online catalog using items from their Peachtree inventory!

### Peachtree WebsiteTrader<sup>39</sup>

Build an online Web Store that integrates with Peachtree. Customers can directly import information on orders placed at the Web Store within Peachtree.

### Peachtree Third-Party Add-on Solutions<sup>40</sup>

Customers can choose from a variety of third-party add-on solutions developed to enhance their Peachtree accounting solutions. Barcode, eCommerce, and Point-of-Sale applications are among the products available. Visit [www.peachtreeaddons.com](http://www.peachtreeaddons.com) for a complete list of third party add-ons.

### ACT! Link for Peachtree<sup>41</sup>

With ACT! Link for Peachtree, customers can easily synchronize key data between their Peachtree accounting solution and ACT! by Sage contact and customer management solution.
